

OIL AND GAS FIELDS, GREAT BEND QUADRANGLE, KANSAS

2019

MAP M-121-7
(Revised)

Map Legend

County Seats 2010 Census Population

- Great Bend 10,000-24,999
- Russell 2,000-4,999
- Jemison Less than 2,000

Transportation

- Interstate highway
- U.S. highway
- State highway

Boundaries

- Township boundary
- County boundary

Named Fields

MAGNETIC NORTH
APPROXIMATE MEAN DECLINATION, 2019

This map was prepared by the staff of the Kansas Geological Survey and is based on Oil and Gas Fields, Great Bend Quadrangle in Kansas (1989) and subsequent revisions with the same name (1990, 1993, and 2009). Oil or gas field status is current as of February 1, 2019. Listings of fields by location, name, and cumulative production are found in the Survey's interactive gas and oil map viewer located at <http://maps.kgs.ku.edu/olgas/index.cfm>. Field names followed by the letter "A" on the map identify fields that were abandoned at completion time. For viewer instructions, click on the "Help" tab at the top of the page. Due to frequent data updates, field and production area boundaries may differ slightly from those shown on this map. All named fields are shown without differentiation between active and inactive. Areas of natural gas production from coal are not included on this map.

As set forth in Kansas Administrative Rule 82-3-102, field boundaries and names are determined by the Kansas Corporation Commission after considering the recommendations of the Conservation Division, Kansas Corporation Commission, and the Nomenclature Committee, Kansas Geological Survey. Data from the Independent Oil and Gas Service, Inc. (IOGS) were used to correct or verify some field area boundaries.

Roads and highways are shown on the map as represented by data from the Kansas Department of Transportation (KDOT) and other sources.

This map was produced using the ArcGIS system developed by Environmental Systems Research Institute, Inc. (Esri).

Computer compilation and cartography by Richard B. Jarvis, Dan S. Gertsen II, and John W. Dunham. Digital data compilation by Michael J. Kilian. 2019 revisions by John W. Dunham and Atefah Hosseini.
