UPGRADES

CROP ROTATION

COST: \$30

Different Crops use up different soil nutrients. Keep your fields fertile by growing more than one Crop type.

For each unique Crop that you grow, collect an extra \$30.

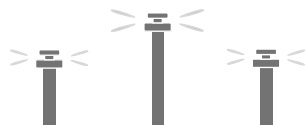

SPRINKLERS

COST: \$40

Invest in more efficient irrigation systems for your Crops.

The water requirements of ALL Crops you grow are halved.

WASTE RECYCLER

COST: \$100

Extract reusable water from the waste of your Livestock.

The water requirements of ALL Livestock you grow are halved.

FERTILIZER

COST: \$50

Nutritionally diverse Livestock manure makes great fertilizer to use in your fields (or sell to neighbors).

For each unique Livestock that you grow, collect an extra \$50.
