FREE WEBINAR FOR SCIENCE TEACHERS

AGRICULTRAL IMPACTS OF LAND & WATER USE:

A CASE STUDY OF THE HIGH PLAINS AQUIFER IN KANSAS

TUESDAY, DECEMBER 1 | 7:00 TO 8:30 PM CST

- **A real case study** of the High Plains Aquifer, the groundwater system beneath western Kansas, and how agricultural land and water use shape it
- **Free, editable classroom resources** that pair with it, with fits for APES Unit 5, environmental science, ag courses, and middle school earth science
- **Giveaways**, including a $25 gift card and a classroom set of Specimania, KGS's specimen identification game
